

Allied Health Professional and General Fellowship Workshop

Tuesday 27 June 2017
York

**A workshop for researchers, clinicians and allied health professionals
interested in research fellowships**

There are many fellowship programmes on offer, so how do you know which one is the best for you? If you want to know more about how to apply to NIHR or MRC fellowships, or how to make the transition from allied health professions into clinical academic research then this fellowship workshop is for you.

Preparing a good application takes time as the submission and evaluation of a proposal is a process that takes several months. This means that planning is vital. This workshop will illustrate the application process and highlight what makes a strong application. This will help you to focus your efforts and ideas appropriately. You will also be able to get advice on how to develop a competitive CV for future applications.

The HEE/NIHR Integrated Clinical Academic Programme for non-medical healthcare professionals offers a range of fellowship opportunities to undertake fully funded clinical research, research training and professional development whilst maintaining clinical practice and salary. More details can be found here: <https://goo.gl/cPBKpo>
