

**NIHR Research for Patient Benefit Programme Event
The Circle, Sheffield
Tuesday 10 October 2017 10 am to 12 noon**

This is a half day event, aimed at researchers in the Yorkshire and Humber region, to promote understanding of the requirements and scope of NIHR’s Research for Patient Benefit (RfPB) programme from the perspective of RfPB panel members. It will provide information about RfPB and about the types of proposals that the programme is looking for.

The event will not be a forum for detailed methodological discussion, but there will be opportunity to network over lunch, and to find out about the support you can get from the Research Design Service (RDS).

Registration to this event is FREE and refreshments will be provided

Speakers will include Professor Allan House, former Chair of the RfPB advisory panel Yorkshire and the Humber, and current members of the now merged Yorkshire and North East advisory panel. RDS advisers from the Yorkshire and Humber region will also be on hand at the event.

In order to secure your place please complete the online booking form [here](#)
