

From Research Idea to Funding Application: Getting Your Grant Proposal Together

Thursday 17 September 2020 - Online via Blackboard Collaborate

The Research Design Service Yorkshire and Humber (RDS YH) offers support to health and social care researchers who are intending to apply for NIHR and other national peer reviewed health and social care research funding programmes. Preparing a good application takes time. This workshop will help you to focus your ideas to produce a strong application.

Who is the workshop for?

This workshop is for researchers and health professionals who want to develop and submit a research funding application. If you want to make a strong, competitive application which has the best chance of getting your research idea funded, then this event is for you.

What do you need to get the most from the workshop?

This event is aimed at those who want to develop and submit a research funding application so we ask that you have a research question or idea of your research topic and area.

This is an online workshop and is **free to attend**. It will run from 10.00 to 12.00 and will aim to cover:

- The importance of a well-defined research question
- Designing a study to answer the research question effectively
- The practicalities of running a research study
- What funders look for in a submission
- Building a team of collaborators
- What to consider when costing a study
- The application process

Pre-workshop preparation

In order to get the most out of the workshop, we would ask participants to look through some material ahead of time. This will include a set of accessible guidance about sources of funding and support for research. We will also ask you to start thinking about how to present your research idea in accessible way by preparing a brief summary in plain English. Participants can use this summary to discuss with other attendees during the workshop. We estimate that this preparation should take about 2 hours of your time ahead of the workshop

This will be an interactive workshop. To book a place on the workshop please complete the [booking form here](#).

Please note: If you do **NOT** have a research idea but are looking for information about how to get started with health or social care research, you can [register your interest using this form](#) and we can arrange for you to speak to an RDS adviser.
